

Rich,

I wanted to take a moment to thank you and your band Jovi for a fantastic performance at the Light House bar back on January 12th as your likeness to the sound and look of Bon Jovi was first class. The vibe was incredible and oozed throughout the entire expansion as guests were singing the songs with you. It was a really cool experience to feel that type of energy. We certainly hope to have you back in the near future as do your fans because I'm still getting email requests.

Good luck and thanks again.
